

ServeDubai.ae

SEO Audit Report & Competition Analysis

Website: servedubai.ae (servedubai.com)

Business: Madinat Alhaya Building Cleaning Services

Report Date: 29 July 2026

Audit Source: Semrush Site Audit - May 7, 2026

Branch: 001-service-hub-website

GBP Rating: 4.3 stars (76 reviews)

Phone: +971 55 127 5545

Semrush Audit Before vs Target:

Metric	Before	Target	Status
Health Score	87%	95%+	Re-crawl needed
Errors	49	0	Fixed (code-side)
Warnings	291	<50	Partially fixed
Text/HTML Ratio	0.03	0.15+	Fixed (CSS + content)

1. Semrush Audit Fixes - Completed

1.1 Inline Style to CSS Migration

Semrush flagged low text/HTML ratio (0.03). Inline styles were inflating HTML size relative to text content.

- 763 inline styles reduced to 70 (91% reduction) across 11 files
- Created organized CSS classes with page-specific prefixes: bi-*, ar-*, he-*, bp-*, ws-*, ct-*, sp-*, sa-*
- Remaining 70 inline styles are truly dynamic values (animation zIndex, conditional styles)

Commit: 66b8e5d

1.2 Hero Image XMP Metadata

All 5 hero carousel images now have embedded XMP metadata (title, description, tags, rating) for Google Image Search indexing.

Image File	SEO Title	Format
cleaning-services-UAE	Cleaning Services UAE	WebP+XMP
marble-polishing-dubai	Marble Polishing Dubai	WebP+XMP
professional-cleaning-UAE	Professional Cleaning UAE	WebP+XMP
sofa-carpet-cleaning	Sofa Carpet Cleaning	WebP+XMP
villa-apartment-cleaning	Villa Apartment Cleaning	WebP+XMP

Script: scripts/add-hero-metadata.py | Backups: public/images/hero/backup/

1.3 H1 Always Present in DOM

Hero carousel had a critical SEO bug: H1 tag was conditionally rendered only on slide 0. When auto-advance moved to slide 1+, H1 was completely removed from DOM. Google crawlers would miss it.

- H1 (slide 0 title) now always stays in DOM with sr-only styling when not visible
- Slides 1-4 use H2 tags - proper heading hierarchy maintained
- Verified: only ONE H1 exists on homepage at all times

Commit: 060d221

1.4 Service Page Content Expansion

6 service pages had thin content (missing contentSections). Added 800-1200 words each with proper H2/H3 heading structure.

Service Page	Sections	Words
Carpet Cleaning	14 sections	1,100+
Dining Chair Cleaning	9 sections	900+
Apartment Cleaning	10 sections	1,050+
Office Cleaning	10 sections	1,000+

Restaurant Kitchen Cleaning	9 sections	950+
Marble Polishing	11 sections	1,170+

All 11 services now have 800+ word content | Commit: 97a937d

1.5 AggregateRating Schema - Real GBP Data

Schema was using fake/placeholder data. Updated to match actual Google Business Profile listing.

Field	Before (Fake)	After (Real GBP)
ratingValue	4.5	4.3
reviewCount	12	76
Individual Reviews	None	3 real GBP reviews

Real reviewers added to schema: Mohammed Muqtadir, Hamza Muhammad Sheth, Ammatullah HM

Commit: 372634e

1.6 Fake Reviews Removed

GoogleReviews.tsx component had 4 fabricated customer reviews displayed on the homepage. Replaced with 3 real reviews from Google Business Profile.

Removed (Fake)	Added (Real GBP)
Fatima M. - villa cleaning	Mohammed Muqtadir - car interior
Rashid A. - sofa/carpet	Hamza M. Sheth - cleaning work
Sarah K. - move-out cleaning	Ammatullah HM - sofa & car seats
Omar H. - office cleaning	(Removed - only 3 real shown)

Rating display corrected: 4.5 stars (fake) -> 4.3 stars (real GBP). Star display: 5/5 -> 4/5.

1.7 Other Items - Already Resolved

[OK] Duplicate Title Tags: All 97 pages verified unique - no duplicates

[OK] llms.txt: Already exists with complete business info

[OK] WhatsApp Number: Confirmed correct (+971 55 127 5545)

[OK] Structured Data: LocalBusiness, Service, FAQ, Breadcrumb schemas valid

2. MarblePro.ae vs ServeDubai.ae

MarblePro.ae (same owner) is ranking and getting business while ServeDubai.ae is not. Key differences identified from direct comparison:

2.1 What MarblePro Does Right

- 100% real photography - zero stock images (17 real job photos + 7 videos)
- Real before/after gallery (30 before/after pairs across 15 service sliders)
- Blog content hub: 8 buyer-question articles (cost guides, how-to, comparisons)
- All 5 SEO phases completed on-site: Pages, Images, Schema, Content, Local
- Honest Google rating (4.3 stars, 6 reviews - never inflated)
- Video gallery as sales tool - autoplay process videos on scroll
- Strong internal linking between all service and location pages
- AI visibility: llms.txt + AI crawler allows in robots.txt

2.2 What ServeDubai Is Still Missing

- Stock images everywhere - no real project photos (this is the #1 gap)
- GBP category wrong: just 'Upholstery cleaning service' instead of 'House cleaning service'
- GBP Services section empty - no services listed with prices
- No Google Posts strategy - MarblePro has active owner posts
- Need fresh reviews - 76 total but many are old
- No weekly GBP photo/video uploads

2.3 What We Already Fixed (Matching MarblePro)

- [OK] Email contact system (Resend notifications, matching MarblePro pattern)
- [OK] Real GBP reviews on website (replaced all fake reviews)
- [OK] AggregateRating schema with honest real data
- [OK] Content depth: all service pages now 800-1200 words
- [OK] Hero SEO: 5 slides with XMP metadata, proper H1/H2
- [OK] CSS optimized for better text/HTML ratio
- [OK] All structured data schemas valid

3. Remaining Actions (Manual)

3.1 Real Photos - HIGH PRIORITY

This is the #1 difference between MarblePro (ranking) and ServeDubai (not). Replace stock images with real project photos. Take before/after photos of EVERY job going forward.

- Take before/after photos for: sofa, carpet, villa, marble, office, car
- Upload to website gallery + GBP weekly
- Use phone camera - real is better than perfect stock

3.2 GBP Optimization - HIGH PRIORITY

- Update business description (clean, keyword-rich)
- Change primary category to: House cleaning service
- Add secondary: Carpet cleaning, Office cleaning, Upholstery cleaning
- Fill Services section with all services + AED price ranges
- Upload 2-3 photos/videos every week
- Post Google Updates weekly (offers, before/after results)
- Fill Q&A section with common customer questions
- Update service areas to cover all 7 Emirates

3.3 Grow Reviews - MEDIUM PRIORITY

Target: 5 new 5-star reviews per month. Send review link via WhatsApp after every completed job. Current: 76 reviews, 4.3 stars.

3.4 Semrush Re-crawl - LOW PRIORITY

Run 'Rerun campaign' in Semrush dashboard after Vercel deployment. Expected: 87% -> 92%+ health score.

4. Git Commits This Session

Commit	Description	Status
66b8e5d	Inline styles to CSS (91% reduction) + hero XMP metadata	Pushed
060d221	H1 always present in DOM for SEO crawlers	Pushed
97a937d	Content expansion for 6 thin service pages (+327 lines)	Pushed
372634e	AggregateRating with real GBP data (4.3/76)	Pushed
pending	Fake reviews removed, real GBP reviews added	Ready
